## EDUCATION

---

**Indian Institute of Information Technology**

*Sri City, AP*

*B.Tech in Computer Science and Engineering*

Aug. 2024 - Present

- GPA: 9 CGPA
- **Relevant Coursework:** Data Structures & Algorithms, Probability & Statistics, Database Management Systems

## RESEARCH

---

**Honours Researcher – IIIT Sri City**

**Jan. 2026 – Present**

***HybridMind: Multi-Channel EEG + Gaze-Controlled VR Game System :***

*Real-time BCI system combining Motor Imagery EEG classification and eye-tracking for simultaneous dual-input VR game control*

- **System:** Developing a real-time dual-input VR control system where eye gaze steers character movement and EEG motor imagery (imagining hand movements) triggers in-game actions — both inputs processed simultaneously with under 500ms latency.
- **Tools:** Python, MNE-Python, EEGNet, ShallowConvNet, LSL, Unity, Meta Quest Pro

## PROJECTS

---

**Streak – Habit & Productivity App** — *Web + Mobile App (in Development)*

- Building a full-stack habit tracking platform with streak counters, progress dashboards, and growth analytics and also React Native mobile app currently in development.
- **Tech Stack:** React.js, TypeScript, Tailwind CSS, Node.js, Express, MongoDB, Firebase Auth

## ACHIEVEMENTS & COMPETITIONS

---

- **Winner – HackAlthon (AI Agents Summit 2025)**  
Built an AI-driven educational platform for personalized learning, leading development workflow and feature integration.
- **Finalist – Agentica (Abhisarga'25), 2025**  
Developed an AI-powered document management platform with intelligent features to enhance productivity.

## SKILLS & INTERESTS

---

- **Languages:** Python, C, JavaScript, TypeScript, HTML/CSS
- **AI/ML:** NumPy, Pandas, Matplotlib, scikit-learn, PyTorch, EEGNet
- **Tools:** VS Code, GitHub, Google Colab, Unity, Firebase, Streamlit
- **Domains:** Machine Learning, Deep Learning, Brain-Computer Interface
- **Interests:** AI/ML, Sci-Fi Films, Late-night Debugging, Chess, Hackathons, Gym

## CERTIFICATIONS

---

- **Machine Learning Specialization – Andrew Ng**, Coursera 2026
